

"IT IS MY GOAL TO MAKE SURE THAT EVERYONE HAS A UNIQUE, PERSONAL, ONCE IN A LIFETIME EXPERIENCE THEY WILL CHERISH AND REMEMBER FOR YEARS TO COME."

not just with photos on a cell phone. "They should have a photographer, a videographer, a makeup artist, and a location to have their ceremony. These were my thoughts, and I was thrilled to see how all of the professionals in our community did not hesitate." The two daughters and their father looked amazing that day, and the professional recording and orchestrating made the event absolutely breathtaking, just as it would have been for their real wedding. It

was the most touching experience AnnMarie has been a part of in her career, and she admires the other local businesses who supported the family. They included Design Haven Studios, Amber Henry Photography, Active Entertainment - Chuck Spencer, and the Ella Sharp Museum.

That experience, and so many others of inspiring customers and generous local businesses, has made AnnMarie proud and thankful to be a part of this community. "The

lock-downs during COVID hurt a lot of our businesses, and many are facing challenges when it comes to keeping their doors open. Before you purchase anything online or out of town, please make sure to do what you can to buy locally in our stores so that our local economy will thrive and grow." AnnMarie stated. Serving her beloved Jackson community has been a privilege, and she looks forward to being here to assist you with looking your very best for more years to come.
